

# FARMERS CELEBRATE EARTH DAY, EVERY DAY

## ELEMENTS OF FARMING

In each box, create an illustration or graphic to represent the element or system. As you go through the lesson with your classmates, take notes about what each element contributes to farming.

| Earth                          | Air                            | Water                          | Plants and Animals (Biosphere)             |
|--------------------------------|--------------------------------|--------------------------------|--|
| Image or Symbol                | Image or Symbol                | Image or Symbol                | Image or Symbol                            |
